A GROWER'S BEST FRIEND

We are Black Dog LED.

We are growers, scientists, and diehard enthusiasts.

We were founded because the lighting systems available simply weren't good enough. So we made our own.

Powerful, effective, scientifically rock solid, our LED lights set new standards again and again. In technology, innovation, and most of all, service.

Because like we said, we're growers, and we want to help others pursue their passions. We are your loyal companion, dedicated to your success, and we're determined to help you be the best grower you can be.

WELCOME TO THE 1ST ANNUAL ILLINOIS CANNABIS CONVENTION

Thank you for joining us at the 1st Annual Illinois Cannabis Convention, the largest gathering of the cannabis industry in the state. Our mission here, as it is at every one of our events, remains the same: bring the cannabis community together so it can grow and prosper through education, collaboration and communication. NECANN is excited to continue to help grow the cannabis industry in Illinois.

Since 2015, NECANN has provided locally-focused and organized cannabis conventions. Through the tireless efforts of so many members of the cann-activist community, we've seen tremendous progress towards normalization of cannabis use which now includes full adult-use legalization in Illinois. As you walk through the convention you'll see and hear proof of progress everywhere, whether it's visiting the exhibitors or listening to one of the many speakers educating us all weekend long.

As always, we are grateful for the support of the exhibitors, sponsors, speakers, and attendees who make these great events possible. Your support is what drives our conventions and the industry as a whole—thank you for letting us be a part of something special!

NECANN Founder,
Marc Shepard
